About this record

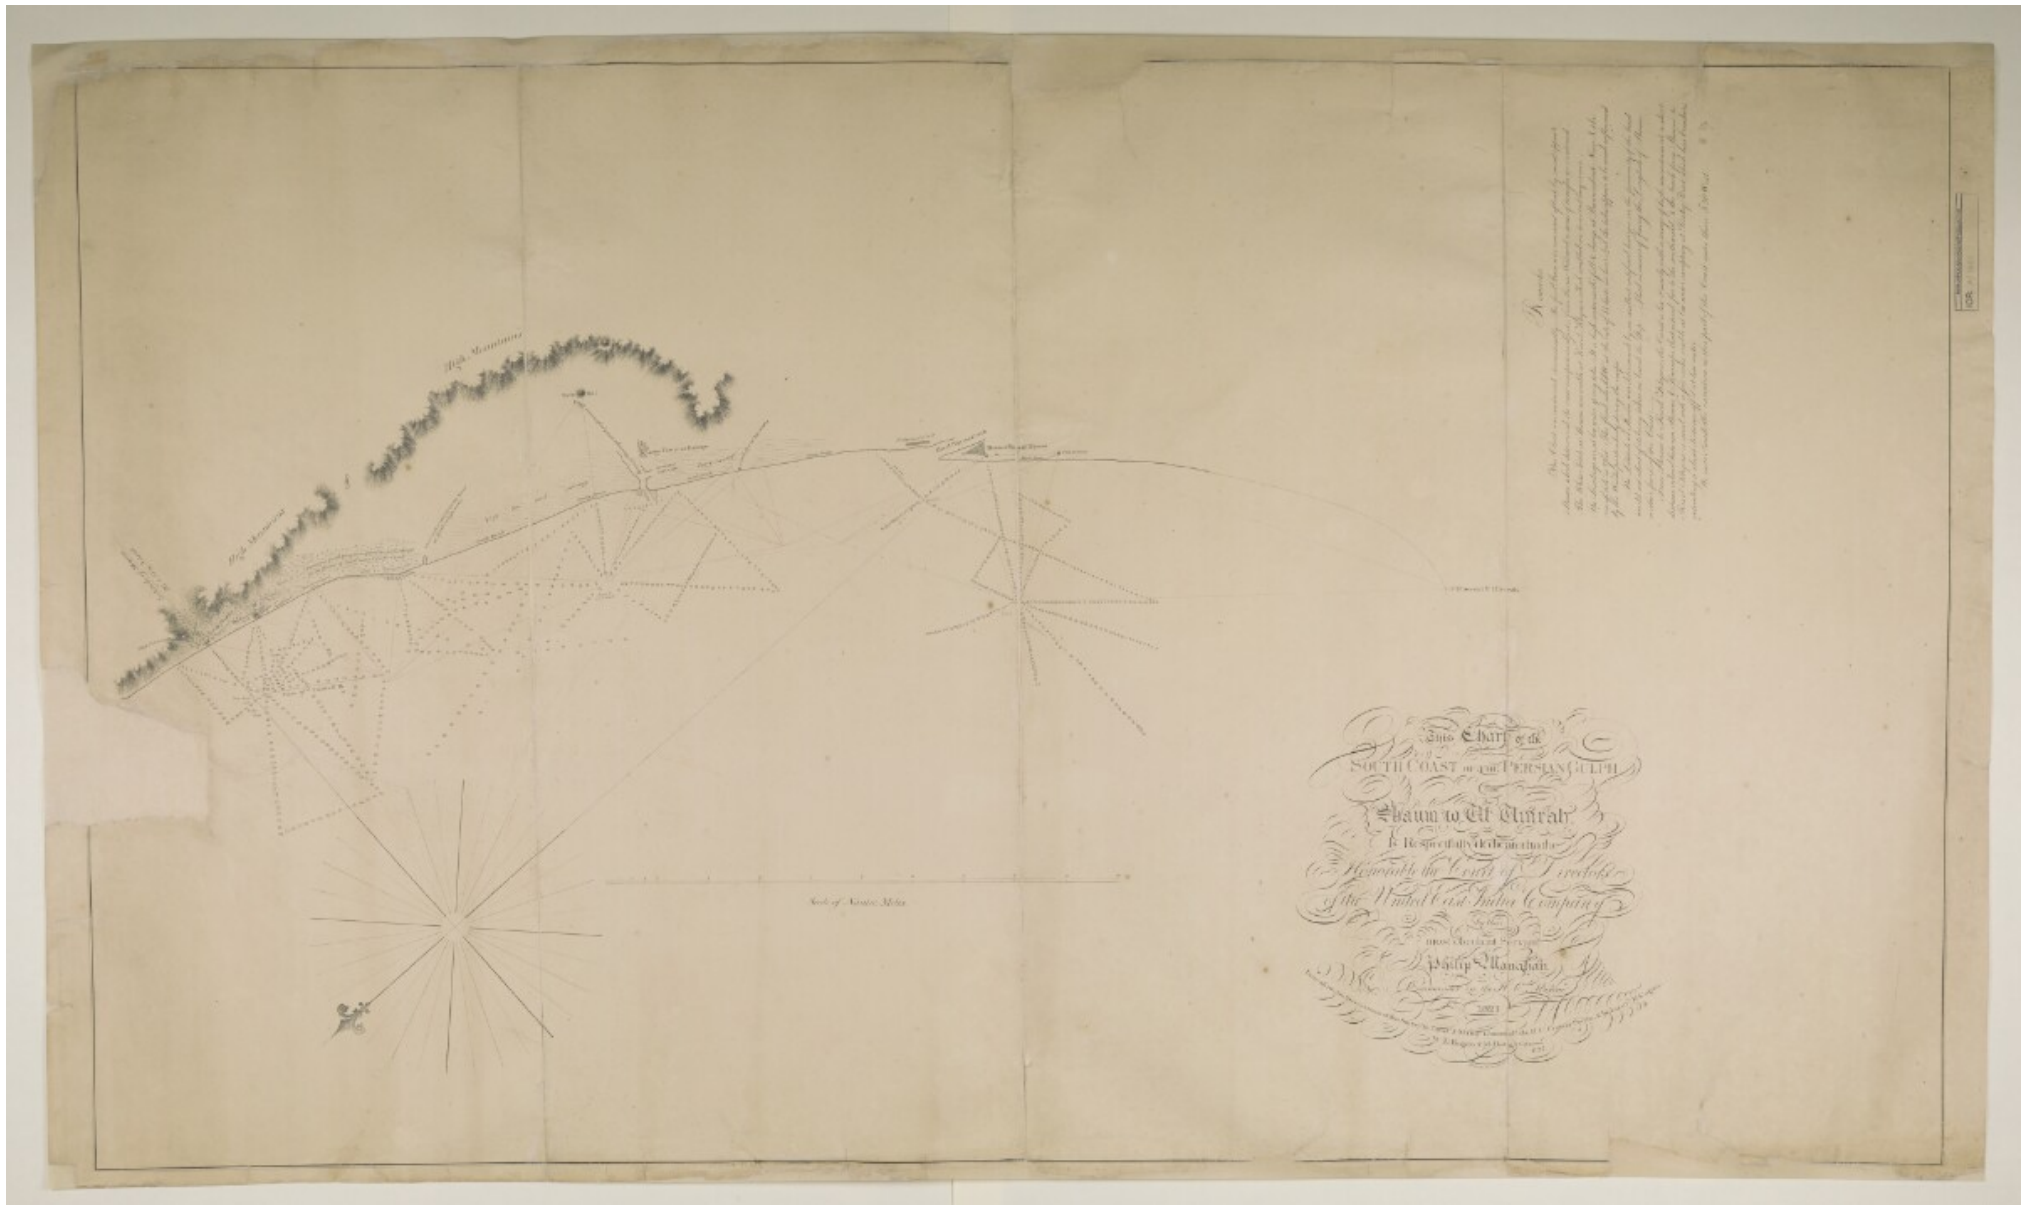

Distinctive Features:

Relief shown by hachures. Depths shown by soundings.

Hand drawn nautical chart of the shores of the Persian Gulf compiled from the survey carried out by the Bombay Marine's officers in 1821 showing the western coastline from Shaum [Ash Sha'm or Sha'am] to UI Umrah [Jazīrah al Ḥamrā'].
Below title a note: 'I was assisted in the execution of the Survey by Lieut.t J.M. Guy Command.s the H.C. Cruizer Psyche, & by Lieut.ts R.Cogan, W.E. Rogers & M. Houghton. P.M. [Philip Maughan]'.
Includes a descriptive note with remarks on survey execution with details on hazardous features and coastal topography. Latitude of Shaum reported; a network of triangles inserted on the map in red ink.
The location of ruins of Ras el Khyma and fishermen huts indicated with shoals and rocks represented by crosses.
Contains dedication to the Court of Directors of the United East India Company from Philip Maughan.
Oriented with south to the top.
